## Who we are

Weaver Fintech Ltd\* has always been committed to serving and enabling female consumers who have been disproportionately excluded from the traditional banking system and unable to access credit.

Evolving from its origins as a homeware provider, the group has grown into a fast-scaling, highly profitable fintech-driven business, offering financial solutions and homeware products tailored to the connected, mobile-savvy urban South African woman.

Weaver has a customer base of over 3.7 million, adding 130 000 sign-ups every month. Women make up 70% of our base, and 64% are Millennials or Gen Z, who are confident using our digital platforms for both fintech and retail offerings.

Our **Fintech division** provides mobile-first payments, insurance and lending solutions. By leveraging innovative software and digital platforms, we enhance accessibility and convenience in financial services. We lead the digital Buy Now, Pay Later (BNPL) market powered by our PayJustNow brand, while our lending and insurance products are delivered under the FinChoice brand. Our merchant services harness advanced data and analytics capabilities to generate insights and deliver new customer opportunities to our merchant partners.

Our **Retail division** is an omni-channel business offering quality, own-brand homewares. It combines an expanding showroom network with a national sales agent base, contact centre, digital channels, a mobile app and WhatsApp chat commerce. This integrated approach enables customers to shop seamlessly across platforms, with purchases delivered to their homes or collected from regional showrooms via click-and-collect.

\* Previously known as HomeChoice International plc.

\* The group refinanced and upsized its interest-bearing loans and borrowing facilities from R3.75 billion to R5 billion effective 8 August 2025.

## Profit jumps 48%, driven by strong Fintech performance

Group revenue rose 29.4% to R2.6 billion, with profit before tax (PBT) increasing 48.0% to R370 million. Fee income grew by 47.2%, now accounting for 28% of total revenue (2024: 25%).

**Fintech:** focused investment in resources, funding and technology within Fintech drove a 39.4% increase in revenue and a 46.2% rise in its PBT. The expanding digital ecosystem is adding an average of 110 000 new customers per month and attracting more merchants. This data-driven platform enables effective cross-selling across a 3.3 million-strong customer base, supporting product evolution and increased adoption of financial services.

**Retail:** the homewares division also performed well, with sales up 12.1% to R0.7 billion (2024: R0.6 billion), a 70 basis points (bps) increase in gross profit margin and PBT up 33.3%. Customer acquisition grew by 38% year on year.

Group trading expenses grew by 17.2%, well below revenue growth. Notably, Retail expense growth was limited to 1.9% despite additional showroom costs. This was off-set by investments in technology and infrastructure to support Fintech's rapid scale. Increased use of artificial intelligence (AI) and a scalable ecosystem contributed to a reduction in expenses as a percentage of revenue, from 25.7% to 24.8%.

Debtor costs rose 38.1%, aligned with Fintech's 39% revenue growth and expansion of the short-term lending book among digitally engaged, reliable payers. Regulatory changes to Registered Mandate (RM) debit orders negatively impacted certain pocket collections, though mitigation strategies have been implemented and are under close review.

The group's receivables remain highly cash generative. Cash collections increased by 47.1% to R7.7 billion (2024: R5.2 billion), outpacing the 24.4% growth in the debtors' book. This reflects strong execution in a challenging consumer environment through a digital-first collections model.

Cash used in operations totalled R129 million (2024: R23 million), primarily due to R0.7 billion invested in working capital to support higher loan disbursements and BNPL growth. Following a successful refinancing and upsizing post reporting, R2.1 billion in cash and undrawn facilities are available for future growth. There was a measured increase in gearing to 83% (2024: 72%), as net debt grew with the net receivables book. The group continues to leverage debt to drive fintech-led growth and market share gains at improved margins.

Capital expenditure amounted to R73 million (2024: R69 million), funding the launch of 10 new Retail showrooms and continued investment in fintech product innovation and digital platform development.

Net interest expense rose 40.6%, reflecting the cost of funding Fintech's expansion. A new R1.25 billion bullet loan was successfully concluded in August 2025, with improved lender diversification.

Headline earnings per share grew 45.0% to 285.5 cents. An interim dividend of 140.0 cents per share has been declared, maintaining a 2.0x cover.

In line with the growing dominance of its Fintech operations – now contributing 98% of PBT before group costs (2024: 98%), the group has changed its name from HomeChoice International plc to **Weaver Fintech Ltd**, with JSE ticker **WVR**. This new name reflects the group's strategic evolution and future focus, with Fintech now firmly established as the primary engine of performance and profitability.

## Fintech ecosystem scaling unlocks strong profitability

\* Restated as per note 8.

Fintech revenue grew 39.4% to R1.6 billion (2024: R1.1 billion), driven by strong fee income growth and cost efficiencies inherent in our digital business model. This supported a 46.2% increase in PBT, rising to R402 million (2024: R275 million). Key performance drivers included deeper product adoption among existing customers and the rapid scaling of our payments business.

Non-interest-bearing fee income saw exceptional growth of 43.1%, now contributing 36.5% of total revenue (2024: 35.6%). This was largely driven by BNPL fee growth of 75.3%, supported by a 22.3% increase in gross written premiums from stand-alone insurance products. We remain on track to achieve our long-term goal of a 50% fee income contribution to total revenue.

Trading expenses rose 34.5%, reflecting continued investment in product design, data science, engineering capacity and digital infrastructure. The scalability of our platform has helped maintain cost efficiency, with the expense-to-revenue ratio improving by 90 bps to 24.8%. The next phase of growth will be powered by AI – enhancing fraud prevention, accelerating development and improving customer support through GenAI chat agents.

In line with revenue growth, the gross debtors' book increased 30.8% to R6.4 billion (2024: R4.9 billion). Debtor costs on the Fintech portfolio grew 39.5%, mirroring revenue growth and maintaining stable

credit performance. Growth in lending and payment disbursements to lower-risk, proven customers has improved the Stage 1 book mix to 77% (2024: 73%).

Collections remained strong, with 94% of customers on debicheck mandates. However, the banking-wide shift to RM debit order processing impacted collection efficiency temporarily. Tactical mitigation efforts are in place and being closely monitored.

The credit impairment provision remains stable at 15.3% (H12024: 17.0%; FY2024: 15.5%), with improved coverage of Stages 2 and 3 loans at 67.9%. The six-month credit loss ratio improved to 20.4% from 20.8% in FY2024.

The Fintech division's shorter-term books, anchored by digitally engaged customers, continue to perform strongly. Cash collections rose 52.3% to R6.6 billion (2024: R4.4 billion), exceeding disbursements and merchandise sales of R6.5 billion and demonstrating the health and scalability of our lending model.

## **Ecosystem**

Our Fintech ecosystem is a fully integrated suite of products and services designed to work seamlessly for both customers and merchants. It functions as a trusted engagement platform where customers can discover brands and customise financial solutions to meet their needs.

The ecosystem has expanded rapidly. The customer base grew 23.5% to 3.3 million, with the merchant base exceeding 3 100. We currently offer more than nine fintech products, with five additional launches planned for H22025.

The strength of our two-sided ecosystem lies in its powerful network effect. As we acquire more customers, merchants gain greater sales opportunities. In turn, an expanding merchant network increases choice for customers, driving mutual growth. Merchants benefit from personalised solutions and ongoing engagement with a growing pool of active users.

We see significant opportunity to deepen customer relationships through product cross-sell and increased ecosystem participation. Currently, 18% of active customers use two or more products, with a long-term goal of reaching 50%.

## **Lending**

Loan disbursements rose 29.7% to R3.6 billion, continuing the momentum from the second half of FY2024. In response to a challenging economic environment, we focused lending on our loyal and profitable customer base. Existing customers – who generally have lower risk profiles – now account for 89% of total disbursements, up from 85% in H12024.

FinChoice MobiMoney™, our flagship three-month digital credit wallet, remains the cornerstone of the lending vertical. Functioning like a virtual credit card, it offers up to R10 000 in daily withdrawals with flexible repayment over one to three months. Customer demand and transaction volumes remain strong, with average monthly disbursements up 32.8%.

## **Payments**

Our leading digital payment solution, PayJustNow's BNPL, offers customers three equal interest-free instalments. With over 110 000 new users joining monthly, BNPL has grown to 2.4 million customers, making it our fastest-growing product.

Gross merchant value (GMV) increased by 88.6% to R2.8 billion (2024: R1.5 billion), generating fee income of R128.0 million (2024: R73.0 million). Our merchant network now exceeds 3 100 retailers, including Superbalist, Edgars, Makro and Cape Union Mart. Visibility on the PayJustNow website has driven 20.4 million customer visits to these merchants through our discovery and search tools in the past six months.

To extend our payment offering, we launched PayStretch™, allowing customers to finance purchases over 12 months at checkout – both online and in-store. This enables access to higher-value items in a more affordable manner. The product has been well received by both consumers and merchants, and we are scaling the innovation into our ecosystem. A pay-in-6 version is in beta testing.

## **Insurance**

Gross written premiums (GWP) for our funeral and personal accident insurance products rose 21.2% to R103 million. Trust in our digital infrastructure has grown, with end-to-end digital policy new sales increasing from 20% in FY2021 to 46% of sales mix in the current period – significantly lowering customer acquisition costs.

We have seen strong uptake of personal accident cover, particularly among existing customers. Currently, only 13% of the Fintech customer base holds an insurance product, indicating a sizable opportunity for increased penetration as we drive platform engagement and embedded product offerings.

## **Marketing as a Service**

Marketing as a Service (MaaS) is an early-stage initiative that leverages data insights and engagement channels to help merchants drive targeted traffic, awareness and conversions. By enabling access to high-intent consumer segments, identified through advanced propensity models, MaaS offers merchants a performance-driven marketing solution with minimal effort. While still in development, it holds strong potential as a new revenue stream and a means to deepen our merchant partnerships.

## Evolving Retail growing sales and improving profitability

		Unaudited 30 Jun 2025	Unaudited 30 Jun 2024	% change
<b>Retail</b>				
Retail sales	(Rm)	<b>677</b>	604	12.1

Provision for impairment as a % of gross receivables	(%)	<b>26.0</b>	29.8	

Retail's top-line growth momentum improves profits.

Revenue rose by a strong 16.2% to R1.0 billion (2024: R0.9 billion). The strong growth in Retail sales, a notable increase in revenue and gross profit margin, lower trading expenses and a non-comparable rise in debtor costs all contributed to a 63.2% increase in operating profit to R31.0 million. Trading expenses have been well managed, a marginal increase of 1.9%, demonstrating strong operational leverage. The annualisation of higher service fees increased revenue by 18.4%.

Retail sales rose by 12.1% – evident of the success of our top-line growth strategies. Our heritage bedding and textile merchandise – central to the business – increased their sales contribution to 61.8%, up from 59.8%, while showrooms showed more than a 50% increase.

Pleasingly, we have acquired 131 000 new cash and credit customers – a notable increase of 38%, and our active credit and cash customer base has increased to 439 000 (+7.3%). We continue to attract new cash customers, primarily driven by the expansion of our showroom network. We have recently introduced WhatsApp sales functionality, delivering 7x higher conversion than the web.

Our showroom strategy along with a new field sales agents strategy are key drivers of top-line sales growth. We now trade in 46 showrooms, contributing 28.9% to total sales, up from 20.6%. During the period we opened 10 new showrooms, each with a compact 270 m<sup>2</sup> trading area and a cost-efficient format that delivers very high trading densities. We plan to open an additional 12 showrooms in H22025, with a long-term goal of expanding our showroom network to 100 locations.

Gross profit margin improved by 70 bps to 46.2% (2024: 45.5%), driven by strong performance in our heritage bedding and supply chain operational efficiencies. Stock levels have been closely managed, with a pull-forward of some shipments to avoid shipping delays and support sales in H22025.

Our retail debtors' book has increased to R1.7 billion (2024: R1.6 billion) a result of the increase in new customers. Debtor costs rose 34.5% – largely due to sales and book growth versus prior-period provision releases on a smaller book. The 26.0% impairment provision has largely been maintained at FY2024 levels and is significantly lower than the 29.8% reported in H12024.

Trading expenses have been well managed, increasing by 1.9%. As we transition to more customer-facing channels – showrooms and sales field agents – we have reduced digital marketing and outbound costs to mitigate these costs. Managing higher cost from showrooms and field agents with a reducing contact centre will be critical going forward.

## **Appreciation**

We are deeply grateful to our employees for their energy, creativity and dedication to innovation, which have been key drivers in advancing the group's customer growth. Their contributions have been instrumental in achieving the outstanding results for the group.

The guidance and support from our board members have been vital in leading the group through its significant transformation.

## **Looking forward**

We expect the strong growth trajectory of our Fintech segment to continue powering group expansion and profitability. As we attract more payments, lending and insurance customers, onboard additional merchants, and launch new products, the ecosystem will grow in both scale and impact. This evolution will not only drive profitability but provide high-quality products that offer access to finance, especially for those historically excluded, fostering greater financial inclusion.

Investing in cross-selling digital financial services to our 3.3 million-strong Fintech customer base presents significant opportunities to enhance engagement and value. Our expertise in digital innovation and data analytics will be pivotal in delivering next-generation products that retain and grow our customer base.

Meanwhile, our expanding showroom network is becoming a vital Retail channel. Scaling to 100 showrooms offers a compelling path to drive sustained growth and robust cash generation.

The momentum from 30 June 2025 has continued. Trading for the first six weeks show disbursements up 25%, GMV up 91% and Retail sales up by 12%.

Any reference to future financial performance included in this announcement has not been reviewed or reported on by the group's external auditors and does not constitute an earnings forecast.

# DIVIDEND DECLARATION

Notice is hereby given that the board of directors has declared an interim gross cash dividend of 140.0 cents (112.0 cents net of dividend withholding tax) per ordinary share for the six months ended 30 June 2025 (period), being a 47.4% increase on the prior period of 95.0 cents. The dividend has been declared from income reserves and is funded from Mauritius. WVR is registered in the Republic of Mauritius which makes this a foreign dividend. A dividend withholding tax of 20% will be applicable to all South African shareholders who are not exempt.

The issued share capital at the declaration date is 106 730 376 ordinary shares.

The salient dates for the dividend will be as follows:

Last day of trade to receive a dividend	Tuesday, 26 August 2025
Shares commence trading “ex” dividend	Wednesday, 27 August 2025
Record date	Friday, 29 August 2025
Payment date	Monday, 1 September 2025

Share certificates may not be dematerialised or rematerialised between Wednesday, 27 August 2025 and Friday, 29 August 2025, both days inclusive.

# Notes to the condensed consolidated financial statements

## 1. Basis of presentation and accounting policies

### 1.1 Basis of preparation

The condensed consolidated financial statements for the six months ended 30 June 2025 have been prepared by the group's finance department, acting under the supervision of P Burnett, CA(SA), the chief financial officer of the group.

During July 2025 the group changed its name from HomeChoice International p.l.c to Weaver Fintech Ltd. Further information on the name change is provided in note 11 (Group segmental analysis).

These condensed consolidated financial statements are prepared in accordance with and contain the information required by IAS 34, the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, the Financial Pronouncements as issued by the Financial Reporting Standards Council, the requirements of the Companies Act of Mauritius and the JSE Limited Listings Requirements for interim reports.

The accounting policies applied in the preparation of these condensed consolidated financial statements are in terms of IFRS Accounting Standards and are consistent with those applied in the previous consolidated annual financial statements.

The June 2024 trade and other receivables have been restated. In the previous year the loan receivables gross carrying amount was not recalculated to account for the modification of the revised contractual cash flows associated with revised terms for customers who enter the debt review process. Consequently, the loans receivable gross carrying amount and the loss allowance were erroneously not adjusted to reflect the modification loss of R136 million. The restatement has had no impact on the primary financial statements, loan receivables net carrying amount or profit and loss.

## 2. Fees

	Unaudited Jun 2025 Rm	% change	Unaudited Jun 2024 Rm	Audited Dec 2024 Rm
Service fees	246	50.0	164	359
Arrear collection fees	75	78.6	42	122
Commission – insurance fees	41	28.1	32	67

## 6. Basic and headline earnings per share

The calculation of basic and headline earnings per share is based upon profit for the period attributable to ordinary shareholders divided by the weighted average number of ordinary shares in issue as follows:

	Unaudited Jun 2025 Rm	% change	Unaudited Jun 2024 Rm	Audited Dec 2024 Rm
Earnings attributable to ordinary shareholders	300	46.3	205	413
Adjusted for the effect of:	–	–	–	–
Impairment of intangible assets	–	–	–	1
Impairment of intangible assets reversal	–	–	–	(3)
Taxation effect	–	–	–	1
<b>Headline earnings for the period</b>	<b>300</b>	<b>46.3</b>	<b>205</b>	<b>412</b>
Weighted average number of ordinary shares in issue ('000)	105 073	–	104 090	104 506
Weighted average number of diluted shares in issue ('000)	105 678	–	105 026	105 669
Earnings per share (cents)				
Basic	285.5	45.0	196.9	395.2
Headline	285.5	45.0	196.9	393.9
Basic – diluted	283.9	45.4	195.2	393.9
Headline – diluted	283.9	45.4	195.2	389.5

## 7. Inventories

	Unaudited Jun 2025 Rm	% change	Unaudited Jun 2024 Rm	Audited Dec 2024 Rm
Merchandise for sale	306	7.7	284	204
Provision for inventory obsolescence	(24)	14.3	(21)	(24)
Goods in transit	56	>100.0	23	96
	<b>338</b>	<b>18.2</b>	<b>286</b>	<b>276</b>

The total amount of inventories expensed to Retail cost of sales during the six months ended 30 June 2025 was R287 million (six months ended 30 June 2024: R259 million; year ended 31 December 2024: R576 million). Inventory sold at less than cost during the six months ended 30 June 2025 amounted to R8 million (six months ended 30 June 2024: R7 million; year ended 31 December 2024: R16 million) and inventory write-downs recognised as an expense during the six months ended 30 June 2025 amounted to R2 million (six months ended 30 June 2024: R1 million; 31 December 2024: R4 million).

\* H12024 and FY2024 have been updated to reflect the net carrying amount of trade and loan receivables.

\*\* The prior year other receivables have been further disaggregated to reflect merchant receivable and prepayments.

\*\*\* In the previous year the gross carrying amount was not recalculated as required by IFRS to account for the modification of the revised contractual cash flows. Consequently, the gross carrying amount and the loss allowance have been restated to reflect the debt review modification loss of R136 million. The restatement has had no impact on the primary financial statements, loans receivable net carrying amount or profit and loss.

## 8. Trade and other receivables (continued)

Trade and loan receivables have repayment terms of between 1 and 36 months and attract interest based on rates as determined by the National Credit Act. Included in trade and loan receivables are amounts approximating R2 121 million (30 June 2024: R1 259 million; 31 December 2024: R1 789 million) that contractually fall due in excess of one year. These amounts are reflected as current as they form part of the normal operating cycle.

9. Interest-bearing liabilities

Total interest-bearing liabilities movement:

## 11. Group segmental analysis

In July 2025 the group changed its name from HomeChoice International plc to Weaver Fintech Ltd (JSE: WVR). The change was made to more closely reflect the fintech nature of the group and the strategic direction of the group. Fintech's profits are 98% of the group's profit before tax, excluding the Other segment. The group name change required that the Weaver Fintech segment be renamed Fintech.

The group is structured into three reportable operating segments: Fintech, Retail and Other. These segments are reported in a manner consistent with the internal management reports submitted to the chief operating decision-maker, identified as the board of directors of Weaver Fintech Ltd. Each segment is individually monitored by the chief operating decision-maker to facilitate strategic decision-making regarding capital allocation and to assess performance based on operating profit.

The Fintech segment comprises digital payment services, insurance products and lending solutions. It holds a leading position in the digital BNPL payments market, operating under the PayJustNow brand. The digital insurance and lending offerings are marketed under the FinChoice brand.

Retail is an omni-channel retailer providing homeware textiles to the mass market on credit. It is sold under the HomeChoice brand with growing customer-facing channels through showrooms and field agents while transitioning from direct marketing.

The Other segment includes group costs and the HomeChoice Development Trust. Intercompany loans are shown on a net basis.

**12. Related party transactions and balances**

Related party transactions, similar to those disclosed in the group’s annual financial statements for the year ended 31 December 2024, took place during the period and related party balances exist at the reporting date. Related party transactions include key management personnel compensation and intragroup transactions which have been eliminated on consolidation.

**13. Capital commitments for property, plant and equipment and intangible assets**

	Unaudited Jun 2025 Rm	% change	Unaudited Jun 2024 Rm	Audited Dec 2024 Rm
Approved by the directors	2	(83.3)	12	1

**14. Fair value**

In terms of paragraph 29(a) of IFRS 7, the carrying amounts reported in the balance sheet approximate fair value.

**15. Contingent liabilities**

The group had no significant contingent liabilities at the reporting date.

**16. Events after the reporting date**

The group refinanced and upsized its interest-bearing loans and borrowings facilities from R3.75 billion to R5 billion effective 8 August 2025. The facilities consist of a revolving credit facility and bullet term loan facilities. The existing lenders are all participating in the upsizing and one new lender was added to the lender group. This refinancing was completed after the reporting date of 30 June 2025 and is therefore classified as a non-adjusting event under IAS 10.

No other event material to the understanding of these condensed group financial statements has occurred between the six months ended 30 June 2025 and the date of approval.

**17. Going concern**

The group assessed the going concern assumption at 30 June 2025 as a result of the current economic, trading and operational conditions on the group consolidated financial statements, as well as the financial statements of each statutory entity. The directors are comfortable, based on the forecast evaluation and current financial position, that the group will continue to operate as a going concern for the 12 months after 30 June 2025.

Following the refinancing and upsizing that was completed after the reporting date described in note 16 the group had unutilised banking and overdraft facilities of R2.1 billion (six months ended 30 June 2024: R1.1 billion; year ended 31 December 2024: R1.2 billion) and is well within the financial covenants with its financiers.

# Administration

## Country of incorporation

Republic of Mauritius

## Date of incorporation

9 April 2020

## Company registration number

C171926

## Registered office

c/o Sanlam Trustees International Limited  
Labourdonnais Village
